

# Healthy Life Part 2

Two days after going out, Jane didn't feel well. She went to bed to have a rest. She tried to sleep but she couldn't because of a stomach ache. She called her doctor and the doctor arrived an hour later.

**Doctor:** Cough, please. (*While listening to her back*)

**Jane:** (*Coughs.*)

**Doctor:** Can you swallow easily?

**Jane:** Yes, I can.

**Doctor:** Do you feel nausea?

**Jane:** Yes, I do.

**Doctor:** Do you have diarrhea?

**Jane:** Yes, I do.

**Doctor:** All right. You might have a cold or a virus. We have to take a blood test.

**Jane:** Doctor, I don't know how I got so bad.

**Doctor:** You should have a rest for a while and take your medicines. Also, you must eat healthy food all the time. Unhealthy food lowers the immune system.

**Jane:** Ok doctor.

**Doctor:** Bye. Get well soon.

**Jane:** I hope so. Thank you.

**Answer the questions according to the text.**

1. Why couldn't Jane fall asleep?
