

Telescopic text for time expressions used with Present Perfect tense

Unfolded version:

I've just visited Spain. I've never seen such a great place yet. I went to Madrid on the tenth of June. I landed on Madrid Airport after a nice flight. Then, we went to our hotel by a coach. We spent three nights there, and had great time. I've already visited many European capitals many times before. It's the first time I've visited and I love it.
